Former Royal Marine Johnny Bryce's life had not turned out as he envisaged. Caught in a love marriage, his daughter is his only joy. But Johnny could not have guessed the anguish he would suffer when the sons of a powerful underworld figure destroy his family. Denied justice by a system that is corrupted by the same family, Johnny's actions bring him into conflict with the very officers assigned the inquiry. But other factors come into play, not least the svelte, immoral and manipulative Mary Crowden, who has her own agenda and is prepared to use every vice at her disposal to achieve her ends. Again, the author brings together several characters and storylines that conclude by posing the question; will you sympathise or condemn a man who, betrayed by the judiciary, seeks his own, brutal form of revenge.
