Liam doesn't know what to make of the ethereal, pretty wolf stepping toward him on the battlefield. Somehow, he's survived being surrounded and torn at. The brothers that banded against him are slain. But he can't remember doing it. And this new, unpainted foe seems eerily unafraid. Break is a novella of about 25,000 words and part ten of a twelve part series. All available books in the series: <http://amzn.to/1RMqly3>
