Have you ever wanted to write a classic like Star Wars but didn't know how to go about it? Perhaps you thought it would take your entire life to ever get that good. Well, think again, my friend, because writing fiction has never been easier. I'm not selling snake oil here, I'm not promising you instant riches. But whether you're aiming to write the next Academy Award-winning movie, or whether you're shooting for the top 100 best sellers list, you don't need a miracle to become as good as your writing idols. All you need is hard work, but more importantly, SMART work. Try out the first installment of a new creative writing book series that will show you the tools that the most famous, celebrated, and best-selling writers use to put together their stories. No theories, no boring general outlook; we'll look at certified storytelling classics and dissect them until your writing skills are so greatly honed you'll forget there was a time when you struggled with even the most basic tenet of storytelling. Excellent writing is within your grasp. If you want to spend years on end perfecting the craft by yourself, godspeed. But if you want to save time, if you want to learn the secrets and tools of the craft and cut down on years and years of fumbling in the dark, then step right in and speed up your journey as a story genius.
