The tests that showed that he was genetically engineered came as a shock. Bad enough he wasn't allowed to compete in sports, was shunned as a techno monster. But now the majority wants "his kind" gone. And with the new parallel world technology, it looks like there's a place to send them. Exiled from Earth, the genetically engineered colonists and the escaped "gods" find their parallel Earth a challenge, a paradise, and an opportunity to explore the abilities their genetic engineering has bed, or cursed, them with. Includes two shorter works in the same world.
