A blizzard spoils a family reunion and only brother and sister make it to the cabin they were suppose to stay at. With little to do and nowhere to go, long buried lusts emerge, leaving Anna and her brother enjoying the stay at the cabin far more than if their parents showed up, to the point they may well invite a new member into the family in the process. This 5800 word erotic short story is not suitable for minors under the age of 18, or those who would be offended by a stepbrother and sister exploring one another through oral, anal, and knocking her up. An Excerpt: My brother sat on the cabin's couch, his head in his hands. He peered at me through them, and wouldn't speak as I approached. I placed my hand on his shoulder, and he looked towards me. I kissed him right on the lips, his breath going with me as I pulled my head away. "...Wha? What's going on?" A finger went to my lips and shushed him. I grabbed my nightie and pulled it over my head, exposing my breasts to him. They were perked up already, surprising me, my dirty thoughts and intentions more than enough. My brother's gaze locked onto my breasts, and I saw him enjoying the sight he sought after for so long. I dropped to my knees, and fished out his cock from his boxer shorts. Still half-erect, it was clear he didn't finish himself off when he fled my room. I peeked upwards, as he looked down at me with horror and amazement, and I ran my tongue up his shaft, sucking it back to its full strength as the head tipped through my lips. My brother's body tensed as my hand went under his shorts and up his thigh to find his hefty testes. "...Ah...I...why?" My mouth released him, as I looked up at him with playfulness. "This is what you wanted, no?"
