As human beings our instinct is to have a roadmap for our lives, because we have goals and desires we want to achieve. Author Charron Walker reveals in My Purpose God's Plan even though we have some control over our future, only God knows the outcome. "The purpose for my life was predestined before I was born. The 'blueprint' I had for my life was not what God had planned for me". My Purpose God's Plan is also available on E-Book at www.tatepublishing.com
