Stock market and stock trading, passive income and online business - 3 in 1! Stock trading: Everybody has considered putting their money in to the stock market at least once in their lifetime. If you know what you are doing, the stock market can be a great source of passive income. By investing in the market, you are supporting the growth of local companies, and at the same time you are making money for yourself. However, the risks of investing should be considered as well. This book gives you the basic and advanced tips on how to start investing. You could use it to start developing your own investment strategies. At the same time, you will learn about the risks of investing to become fully aware of all the possible outcomes. By reading this book, you will be able to do informed decisions rather than just gambling your money in the market... Passive income: Some might think that acquiring passive income is living the dream. In a way, it is. After all, who would not want to earn enough money without having to lift a finger? While generating passive income is not as easy as some might think, the good news is that you will find the five best ways to earn passive income in this book. The first thing that you will learn from this book is the truth about passive income. This will help

you set the right expectations and explore the concept in a technical manner (in other words, how the IRS sees it). After that, you will learn about the five most common sources of non-active income, or income that does not require you to invest your time and effort to generate it... Online business: Starting an online business can be beneficial to you as an entrepreneur, to your customers, and to your employees. Starting a business gives you an opportunity to earn a higher income and have a flexible schedule. At the same time, it allows you to help other people by creating jobs. Since the advent of the Internet, starting a business has become easier and more cost-effective. Unlike with businesses that require a physical location, such as brick-and-mortar stores, online businesses only require you to have a computer and an Internet connection. There is no more need for you to rent an office space or a warehouse for your merchandise. Depending on where you live and the licenses and permits necessary for homebased businesses, you may be able to store your merchandise in your garage or basement.
