RCR's architectural oeuvre balances between nature and culture, created specific to each project's conditions, its site and surrounding landscape. Between 2003 and 2007 the collaboration has continued its specific exploration as the 25 projects demonstrate, consistently surprising with their choice of materials and the tranquillity of their designs. The rich collection of projects featured in this volume are all captured through full page colour photographs, and include: the Piedra Tosca' and La Arboleda' parks, Girona, Els Colors Nursery', Barcelona and the The Edge' project in Dubai. Explanatory texts, plans, elevations and diagrams accompany each of the respective works and projects.
