Spikey is a salt-water crocodile who will eat almost anything, but everything is disappearing fast. He dives deep into the ocean and fights for a catch with a killer shark. Be warned this is very dangerous. Another beautifully illustrated children's story book with twenty-six colourful pages, for two to seven year olds. Every picture tells a story, to read with or without an adult. Author Biography: Viv Rosser, the author and illustrator trained as an artist, was a primary teacher and gestalt therapist and loves getting back to draw from nature. This color picture book is suitable for the Kindle Fire, Kindle Fire HD, Kindle Fire HD 8.9, Ipad or Iphone, but also looks good in the Amazon Kindle-Viewer (on a PC or Mac - set full-screen, landscape). To display pictures full screen, set words per line to max in Kindle-Viewer. Illustrations are both portrait and landscape. On portable devices, set them to switch from portrait to landscape when the device is rotated.
