The people who will do exploits in this world are those who will discover what faith is and what faith can do. The Bible is clear in stating that without faith it is impossible to please God. If we develop our faith we will eliminate a whole lot of problems in our personal lives, churches, communities, families, schools and industries. Just as man has to go through physical development, so is spiritual development important. As the body matures, so must ones spirit mature. I pray this book will be a motivation, a challenge and a source of encouragement to get you to fully achieve your goals. Your future is certainly more exiting than what it is now. There is still more to discover and pass on to the next generation.
