The Consortium, an international group of businessmen, launches a silent war against the United States using biological contaminants to destroy crops and create the need for medical technology it intends to black market. The goal? Financial Gain. The method of attaining it? Manipulate the economy and, through it, the government. The war will be won before the U.S. realizes it has been attacked--and the Consortium will rule the U.S. But the Consortium didn't plan on the Special Detail Unit Senior Special Agent, Gabby Kincaid, discovering there is a war and it's being fought and won by the enemy: a discovery that exposes Gabby's cover and marks her for elimination by her partner, Special Agent Max Grayson. Max attempts to execute his orders, but he and Gabby become the U.S.'s strongest defense. They must work together to expose the enemy--before more innocents die from deliberate contamination; before the economy collapses; and before the country is crippled. Few things surprise Gabby or Max on this mission, but one stuns them. Neither expected to fall in love.
